at the Sixth Congress of the League of the Socialist Working Youth of Korea

(All rise. The respected and beloved Leader Comrade Kim Il Sung appears on the rostrum amid thunderous applause, stormy cheers and shouts of "Long live the great Leader Comrade Kim Il Sung!" shaking the hall.)

Dear Comrade Youth Delegates,
Dear Foreign Youth Representatives,

The Sixth Congress of the League of Socialist Working Youth is an event of great significance in the life of all our young men and women and all the people of our country. At present this Congress is carrying out its work successfully amidst the great interest and hope of our Party and people and with the warm support and encouragement of many young friends and progressive people in foreign lands. **(Loud applause.)**

The Party Central Committee is very much satisfied over the smooth proceeding of the work of the Congress and wishes it success. **(Loud applause.)**

I would like to offer warm congratulations and thanks to the delegates to the Congress and to all the LSWY members and youth of our country—the courageous young fighters who have always been true to our Party's call and are devoting themselves to the struggle for the implementation of the Party's policies. **(Prolonged loud applause.)**

On behalf of the Central Committee of the Workers' Party of Korea, the Government of the Democratic People's Republic of Korea and the entire Korean people, I also sincerely welcome foreign youth representatives who have come to our country to celebrate the Congress. **(Prolonged loud applause.)**

Comrades,

The Korean youth movement, along with the history of the communist movement in our country, has traversed the path of a proud struggle, and the youth of Korea have glorious revolutionary traditions. For nearly half a century from the formation of the Down-With-Imperialism Union, our country's first revolutionary youth organization, up till now, the Korean youth have fought valiantly for the independence of our fatherland and the freedom of the people, for the victory of the communist cause. Our youth shed much blood in the struggles against Japanese and U.S. imperialism, as well as domestic reactionaries, and underwent many harsh ordeals. Under the leadership of the Communists, however, they overcame all hardships and trials and unyieldingly struggled straight along the road of revolution. With their heroic and self-sacrificing struggle, our youth set a noble example of young communist revolutionary fighters and accomplished lofty exploits which will shine resplendently in our people's revolutionary history. **(Loud applause.)** During the period of the anti-Japanese revolutionary struggle for the freedom and liberation of the fatherland, the brilliant revolutionary traditions of our country's youth movement were established. **(Prolonged thunderous applause shaking the hall.)**

The LSWY that sprang from the deep roots of the anti-Japanese revolutionary struggle and has inherited its brilliant revolutionary traditions, as well as the entire youth, have given full scope to their energies and talents in the struggle to establish a new social system free from exploitation and oppression in our country, and in the great work of construction to build up our fatherland into a rich and strong socialist industrial state. **(Loud applause.)** All the shining achievements of our people in the revolutionary struggle and construction work are associated with the heroic struggle and endeavours of millions of our young men and women; the great creations of socialism made on this land symbolize the immortal feats performed by the Korean youth for the fatherland and the people. **(Loud applause.)** The youth of our era can have a legitimate pride in the achievements made by their heroic struggle and creative labour. **(Loud applause.)**

The youth have changed beyond recognition spiritually and morally through the fruitful struggle for revolution and construction. Our youth are now in an excellent mental condition. All young people can defend the purity of Marxist-Leninist ideology and they are brimming full with the unanimous resolve to be boundlessly loyal to the Party and the revolution. **(Loud applause.)** The youth are permeated with our Party's revolutionary ideas. As befitting the youth in a revolutionary era, our young people like struggle and work; they participate in political, organizational life faithfully, always lead a frugal life and help and lead each other forward, one for all and all for one. This is their beautiful trait, and the revolutionary spirit of the heroic Korean youth. **(Loud applause.)** Our Party and people are very happy and proud that they have such fine youth. **(Loud applause.)**

We can say with high pride that we have excellently brought up the masters who will bear the destinies of the fatherland and the nation on their shoulders. **(Prolonged loud applause.)**

Comrades, the youth are heir to our revolutionary cause.

In our country today, an advanced socialist system has been established by the heroic struggle of the people and youth. Under this system our young people are enjoying a new, happy and worthy life. However, the revolutionary struggle never comes to an end with the establishment of the socialist system and the building of the material and technical foundations of socialism.

Our revolutionary cause has not been completed, and we have so far liberated only a half of the country. U.S. imperialism, the inveterate enemy of our people, occupies half of our territory, and Japanese militarism with the backing of U.S. imperialism has revived and is intensifying its manoeuvres to resume aggression. In south Korea under the occupation of U.S. imperialism, the landlords, comprador capitalists and the reactionary bureaucratic clique of pro-U.S. and pro-Japanese stooges are still ensconced and the reactionary colonial regime of fascist rule remains as ever. As long as imperialism stays and all reactionaries and their underlings remain, we cannot discontinue our revolutionary struggle.

The revolution continues and generations go by constantly. Though the target of the revolution remains unchanged, the generation has alternated and the new generation grown up after liberation is already emerging as master of our state and society. Only when the new, rising generation takes over the revolution can the revolution be carried forward and our sacred revolutionary cause be accomplished.

Precisely you, the youth of our age, are entrusted with the glorious task of taking over and carrying forward the revolution until our country is completely liberated and reunified and the nation-wide victory of the Korean revolution is achieved, and until imperialism is beaten on a world-wide scale. **(Prolonged loud applause shaking the hall.)** Even after the country is reunified and the socialist revolution is won on a national scale, our youth should continue the revolution until the building of communism is completed. Further, our young people are under the obligation to fight it out, together with the progressive youth of the world, to win victory for the cause of anti-imperialist revolution and the cause of socialism and communism throughout the world.

The young people should not be carried away by victories, but should struggle unremittingly for a fresh victory of the revolution, and they should succeed to the revolution with honours. **(Loud applause.)**

If the young people are to take over and carry forward the revolution, they are required, among other things, to make perpetual efforts to revolutionize and working-classize themselves. Although revolutionization is necessary to everyone, it is more vitally needed, in particular, for the younger generation who have not tasted the ordeals of the revolutionary struggle.

Our youth should arm themselves closely with Marxist-Leninist ideology, with the revolutionary ideas of our Party, make a profound study of the glorious revolutionary traditions of our Party, and tirelessly learn from the lofty revolutionary spirit of the anti-Japanese revolutionary forerunners. **(Loud applause.)** As they become happier, the youth should not forget the past of our people who were exploited and oppressed and should equip themselves firmly with the revolutionary consciousness of the working class. All the young people should be well aware of the aggressive nature of imperialism, particularly U.S. imperialism, and Japanese militarism and of the exploiting nature of landlords and capitalists, should hate the enemies and fight it out resolutely against imperialism and the exploiter system. **(Loud applause.)**

To strengthen organizational life in the LSWY is one of the important ways to revolutionize and working-classize young people. All the younger generation of our country spend their youth in the LSWY organization. Life in the LSWY represents the political, organizational life of the LSWY members and is a good school of ideological training for them. The youth should be faithful in their organizational life in the LSWY and train themselves well politically and ideologically, so that they establish a revolutionary world outlook and thoroughly revolutionize and working-classize themselves while they are still in the LSWY.

Thus, all our young people should become genuine revolutionary fighters for communism boundlessly true to the revolutionary cause of the working class and should continue a resolute struggle for the final victory of our revolution. **(Prolonged loud applause.)**

Comrades,

Socialist construction is an important revolutionary task of the young people today.

Our people under the leadership of the Workers' Party have already accomplished a great deal of work in socialist construction. Our socialist system has been further consolidated and our country converted into a powerful socialist industrial state. The independent socialist national economy our people have built up by waging a hard struggle with the spirit of self-reliance is displaying ever greater might, and the people's material well-being and cultural standard in general have improved markedly. **(Loud applause.)**

Our struggle has now become more powerful and fruitful and broader vistas are opened up before us. We have to fight vigorously to consolidate and develop the successes achieved in socialist construction and to carry into effect the new, magnificent programme of socialist construction advanced by the Fifth Congress of our Party.

The new battle for socialist construction calls for more energetic labour endeavours on the part of the young people.

Young people constitute a great force in the labour front for building a new society. The Party has faith in the strength and talents of young people and places great hopes on them. **(Loud applause.)**

Our young people must all take a more active part in the sacred struggle for building a socialist fatherland, rich, strong and beautiful, and give full play to their great youthful strength and talents in this fruitful struggle. Young people must also take the lead in doing difficult and arduous work in the struggle for fulfilling the Six-Year Plan, as they did in the past, and perform more brilliant feats of labour in socialist construction. **(Loud applause.)**

The extraction industries, agriculture and the construction sites for great nature-remaking work are honourable work places for young people. At present the Party is directing great efforts to those branches and hopes that young people will play a bigger role there. More young people must go to work at collieries, mines, in forestry, fisheries, agriculture, on construction sites of power stations and tideland reclamation, and assistance should be given to those branches in a movement of the whole masses. **(Loud applause.)**

A new great upsurge will take place in the socialist construction of our country when strong, vigorous and brave youths fight, as a shock force for socialist construction, in all branches of the national economy devoting all their strength and talents. **(Loud applause.)**

Young people must not only bear the brunt of difficult and arduous work, but also become the vanguard in the carrying out of the technological revolution.

Today our country has entered a new stage of technological development. The technological revolution with its three major tasks is one of the central tasks of socialist economic construction set forth by the Party at the present stage; it is an honourable task to develop the country's productive forces onto a higher plane and ensure the complete victory of socialism and emancipate all the working people from arduous labour. **(Loud applause.)**

Successful fulfilment of the tasks of the technological revolution put forward by our Party depends largely on the young people who are sensitive to the new and have a strong enterprising spirit. Our young people must devote all their wisdom and energies to the successful carrying out of these glorious tasks assigned to them.

In order to be pioneers in the technological revolution the youth must have the knowledge of modern science and gain a mastery of technology.

Ours is an era of rapid scientific and technological development. Modern science and technology have been widely introduced and are playing an increasingly greater role in production and construction. Today, without scientific knowledge and technical know-how, our national economy cannot be advanced even an inch, nor can the youth play the role of shock force and pioneer in socialist construction.

The LSWY organizations should organize a mass campaign among the youth to master science and technology, and all the young people must actively endeavour to learn new techniques. **(Loud applause.)** The youth must, without exception, learn and learn strenuously and acquire more than one kind of technical skill, and master the technique in their respective branches of work.

Young people should play the vanguard role in popularizing new techniques and actively participate in the technological innovation movement. There should not be conservatism and mysticism about technology among the young people. In all fields of the national economy the youth must actively strive to oppose conservatism and mysticism which hinder technological progress, boldly to create new technique and establish new records scrapping old technical norms and to devise rational working methods and efficient machines. In this way, all the production processes should be mechanized and automatized as soon as possible by the wisdom and efforts of our youth, and the working people must be freed from difficult and exhausting work. **(Prolonged loud applause.)**

It is important to take good care of and scrupulously protect the wealth already created, while increasing the wealth of the country and

society. The youth should take loving care of and look after all the property of the country and society and manage the nation's economic life assiduously.

We are building socialism in direct confrontation with the enemy under the conditions of the country having been divided. Our people and youth should step up socialist economic construction to the utmost and, at the same time, continue to make great efforts to increase the nation's defence potentials and make full preparations to cope with war. To defend the socialist fatherland is a sacred duty of the youth. All the youth should turn out and firmly defend the socialist fatherland militarily and politically. **(Prolonged loud applause.)**

Our young people must oppose all manifestations of indolence and weariness and must always keep themselves alert and ready against the aggressive manoeuvrings of the enemy. The youth should never be swayed by a pacifistic mood and, especially, should strictly guard against the infiltration of the revisionist ideological trend of warphobia into our ranks. **(Loud applause.)** All young people must have a firm ideological determination to gallantly meet and fight the enemy if he attacks us.

Young soldiers of the People's Army and the garrison who are standing guard over the outposts of national defence, should impregnably safeguard the defence lines of the fatherland, more energetically participate in combat and political training and increase in every way their units' combat efficiency and combat readiness.

Worker-Peasant Red Guards, Red Young Guards and all our young men and women, as well as People's Army soldiers, should earnestly learn military art, take an active part in military training and perseveringly study war experiences. Our youth, together with all the people, should build socialism successfully, firmly defending their posts and the socialist fatherland with a rifle in one hand and a hammer and a sickle in the other. **(Loud applause.)**

The enemy of revolution manoeuvres viciously to undermine our socialist system from within and destroy the achievements of socialist construction. Young people must keep a sharpened revolutionary vigilance at any time and at any place and firmly guard against the enemy's subversive and sabotaging activities the factories, enterprises, railways, harbours and other production facilities, cultural establishments and all the properties of co-operative farms which have been built up with the sweat and blood of our people. **(Loud applause.)**

Comrades,

Our LSWY members and young people are confronted with a sacred task to give an active support to the south Korean youth and students in their struggle against U.S. imperialism and its stooges and for freedom, liberation and the reunification of the country. **(Loud applause.)**

The south Korean youth movement constitutes an honourable part of the Korean youth movement as a whole. The south Korean youth and students who have a brilliant tradition of heroic struggle against the foreign imperialist aggressors, have unfolded a tireless struggle against the U.S. and Japanese imperialists, and their successive lackeys. Through their heroic struggle, they have defended the honour and dignity of our nation and showed the ardent patriotism and revolutionary mettle of the Korean youth to the full. **(Loud applause.)**

Even at this moment, the south Korean youth and students, braving the brutal oppression and terrorism of the enemy, are fighting admirably for the democratization of school and for democratic freedom and liberation. **(Loud applause.)** The flames of anti-imperialist, anti-fascist struggle for democratization sparked off by the south Korean youth and students are raging fiercely already for three months this year. **(Loud applause.)** The struggle of the south Korean youth and students against the U.S. and Japanese imperialists and their henchmen has a great impact on the development of the south Korean revolutionary movement. The patriotic struggle of the south Korean youth and students is playing an important role in awakening broad sections of the popular masses of south Korea who aspire after national liberation and the reunification of the country and planting the seeds of revolution in them. **(Loud applause.)**

Our people highly appraise the courageous struggle of the south Korean youth and students and will remember for ever the priceless exploits performed by them in the sacred struggle for national liberation. **(Prolonged loud applause.)**

In order to fulfil their sacred duty in the national liberation struggle of our people, the south Korean youth must continue to wage a vigorous anti-U.S., anti-Japanese, anti-puppet struggle. The south Korean people and youth and students can attain genuine freedom and liberation, only when they drive out the U.S. imperialist aggressors and knock down their stooges; they can avert the danger of a new calamity, only when they frustrate the reinvasion machination of the Japanese militarists.

At this moment, the south Korean people and youth and students must raise higher the flames of anti-fascist struggle for democratization. To achieve the democratization of south Korean society is the most urgent task at present in the struggle of the south Korean people and youth and students against foreign imperialist aggressors and their lackeys. There can be no social progress nor the successful development of the youth movement as long as the people's liberties and democratic rights are trampled upon and fascist suppression and despotism prevail.

The south Korean youth and students should fight more resolutely against the militarization and commercialization of school and for the freedom of speech, the press, assembly, demonstration and association as well as the freedom of activities of political parties and social organizations, and should decisively smash all sorts of fascist repression of the progressive youth and students and people by the enemy.

In order to win victory in their struggle the student youth of south Korea must build up their ranks more firmly and achieve unity with the broad popular masses of all social strata and, especially, must combine the movement of student youth closely with the struggle of the workers and peasants. Going deep among the masses of the workers and peasants, the south Korean student youth should constantly increase their revolutionary awakening and strengthen organizational ties with them through various forms of joint struggle. When the struggle of the south Korean student youth is linked up with that of the workers and peasants, it will display greater might; when the workers, peasants, student youth and all the patriotic people of south Korea rise and fight in a body, the south Korean revolution will be crowned with a brilliant victory. **(Loud applause.)**

The puppet clique in south Korea are now seeking to prolong their power by despotic military suppression and vicious methods, but there is no doubt that they will be overthrown before long by the nation-wide resistance of the youth and students and broad masses of the people in south Korea just as the old Syngman Rhee puppet clique was overthrown. **(Loud applause.)**

The youth in the northern half of the Republic and in south Korea are the proud rising generation of Korea who will shoulder the future of a reunified fatherland. The south Korean youth should extricate themselves from the colonial rule of the U.S. imperialists as soon as possible, and they should study as much as they like and bring their youthful wisdom and talents into bloom under a happy socialist system as the youth in the northern half of the Republic. **(Loud applause.)**

The youth in the northern half of the Republic must do all they can to actively support and encourage the just struggle of the south Korean youth. This is a sacred duty of our youth in the northern half of the Republic. All our LSWY members and young people must not forget the misery of the south Korean youth even for a moment, and must always lead a strained and militant life with the feeling of standing in the same fighting ranks with them and actively strive to build up the revolutionary base in the northern half of the Republic more firmly. **(Loud applause.)**

The south Korean people and youth are fighting under very difficult conditions, and they still have a thorny path to follow. But the south Korean youth will overcome all trials and expand their fighting ranks and thus eventually discharge their lofty mission with credit in the national-liberation struggle of our people. **(Loud applause.)**

The just struggle of the south Korean people and youth and students against the U.S. and Japanese imperialists and their lackeys will surely emerge victorious with the active support and encouragement of the people and youth in the northern half of the Republic and with the warm encouragement of the progressive people and youth all over the world, and the sacred cause of national-liberation democratic revolution will be accomplished in south Korea without fail. **(Prolonged thunderous applause.)**

Comrades,

The revolutionary struggle of the Korean youth is developing in close connection with the struggle of the progressive youth of the whole world for peace, democracy, national independence and socialism. In order to accomplish the cause of national liberation, our people and youth should constantly strengthen their solidarity with the progressive peoples and youth throughout the world while expanding the revolutionary forces in north and south Korea. To strengthen the solidarity with the international revolutionary forces is one of the important factors in driving out the U.S. imperialist aggressors from south Korea and achieving the reunification of our country and the nation-wide victory of the Korean revolution.

U.S. imperialism is the most barbarous and most heinous aggressor of modern times and the chief enemy of peace, national independence and socialism.

The Korean youth should continue a resolute fight against the policy of aggression and war pursued by the imperialists headed by U.S. imperialism, and should be closely united with the progressive youth of the world in this struggle. **(Loud applause.)** Our youth should unite with the youth of all countries who are fighting against imperialism for peace, democracy, national independence and socialism, should support their struggle and strive to win a greater international support for the anti-U.S. struggle of our people. **(Loud applause.)**

Today U.S. imperialism is given to aggression and war in all parts of the world and directs the spearhead of aggression to Asia in particular. Not a day passes without witnessing war flames kindled by U.S. imperialism in Asia.

Our youth should struggle, in a greater unity with the fighting youths of all the Asian countries, in order to frustrate the U.S. imperialist aggression on Asia and to chase away the aggressive forces of U.S. imperialism from the southern half of our country, Taiwan of China, south Viet Nam and the rest of Indochina, from all parts of Asia. **(Prolonged loud applause.)** In unity with all the anti-imperialist forces in Asia and the world, the Korean youth should decisively foil the reinvasion ambition of Japanese militarism which has revived under the aegis of U.S. imperialism. **(Loud applause.)**

This Congress is attended now by numerous young anti-imperialist fighters of the world. This is a striking demonstration of the international solidarity of the youth in the anti-imperialist struggle. **(Loud applause.)** You have not only offered warm congratulations to the Congress of our youth but also extended active support to our people and youth in their struggle against U.S. imperialist aggression and Japanese militarism's reinvasion scheme and for the country's reunification. **(Loud applause.)** This support and encouragement is highly valuable for us. We are very grateful for it and express warm thanks to you. **(Loud applause.)**

It is very good for the victory of the common anti-imperialist cause that the progressive peoples and youth of the world unite firmly and give support and encouragement to one another. The imperialists are afraid more than anything else of the peoples and youth uniting strength precisely in this way. That is why they are resorting to all kinds of tricks to obstruct the international unity of the peoples and youth and to break up the anti-imperialist front. It is necessary to sharpen vigilance against and thoroughly defeat the plots of the imperialists to smash the anti-imperialist revolutionary forces piecemeal.

Our youth are now living in a great age of revolution, an age of struggle when imperialism falls and socialism wins on a world-wide scale. The fighting ranks of the peoples and youth against imperialism keep growing in Asia, Africa, Latin America, and in the capitalist countries of Europe—in all parts of the world. Opposition to imperialism and aspiration towards socialism is an irresistible trend of our times. **(Loud applause.)** Imperialism is on the decline and the imperialists find themselves in an ever-worsening adversity. The general situation is developing decisively in favour of the revolutionary cause of the peoples. **(Loud applause.)**

Our youth, together with the progressive young people of the whole world, should hold higher the banner of struggle against imperialism and strive to rally the fighting ranks of the youth opposing imperialism still more closely. Thus, the flames of the anti-imperialist, anti-U.S. struggle must be made to rage more fiercely in Asia and Europe, in Africa and Latin America, and in all countries, large and small—in all parts of the world. **(Loud applause.)**

The anti-imperialist revolutionary cause of the peoples will surely triumph; imperialism and all reactionaries will be destroyed completely by the struggle of the peoples. **(Loud applause.)** This is an inexorable law of historical development. **(Loud applause.)**

As in the past, so in the future the Korean youth must fight stoutly for the reunification of our country and the final victory of the Korean revolution, for the building of a new world free from imperialism, exploitation and oppression, in unity with the youth of the socialist countries, in unity with the fighting Asian, African and Latin-American youth and in unity with all the progressive youth of the world, holding high the banner of Marxism-Leninism and proletarian internationalism, the revolutionary banner of anti-imperialist, anti-U.S. struggle. **(Prolonged loud applause.)**

Comrades,

The LSWY is the glorious revolutionary organization of the Korean youth led by the Workers' Party. The triumphant advance of the communist youth movement in our country and the brilliant feats and achievements of the LSWY are all attributable to the sagacious leadership of the Workers' Party of Korea. **(Prolonged thunderous applause shaking the hall.)** The further consolidation and development of the LSWY and the bright future of the Korean youth are inconceivable apart from our Party's leadership. **(Loud applause.)** The LSWY must be loyal to the leadership of the Workers' Party of Korea to the end in the future, just as it has been in the past. **(Prolonged thunderous applause.)**

There will be only brilliant victories and glories on the road ahead of the LSWY and the Korean youth that march vigorously under the leadership of our Party, following the revolutionary banner of the *Juche* idea. **(Prolonged thunderous applause.)**

I am firmly convinced that in the future all our LSWY members and youth, as successors to our revolution, will creditably carry out the glorious revolutionary duty entrusted to them and reliably carry forward our revolution. **(All rise. Shouts of "Long live the great Leader Comrade Kim Il Sung!" Stormy cheers and prolonged thunderous applause.)**

In the Presence of Comrade KIM IL SUNG, the Great Leader of Our Party and the 40 Million Korean People, Fourth-day Session of Sixth LSWYK Congress Held

In the presence of Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people, the fourth-day session of the Sixth Congress of the League of Socialist Working Youth of Korea was held on June 24 in a very surging and stirring atmosphere where boundless emotion and joy filled the meeting hall.

At nine a.m. **Comrade Kim Il Sung, the founder and the Leader of the League of Socialist Working Youth of Korea, benevolent father of the youth and great Leader of revolution, appeared on the platform** amid the resounding welcome music.

The great Leader Comrade Kim Il Sung organized and led to victory the struggle for the country's liberation, the post-liberation peaceful construction and the Fatherland Liberation War and the socialist revolution and socialist construction, rallied the whole Party and the entire people as firm as a rock on the basis of the unitary ideological system of *Juche* and converted our country into a mighty socialist industrial state with complete political sovereignty, firm independent national economy, invincible self-defence power and brilliant national culture in a short space of time.

Through his early revolutionary activities and in the thick of the 15-year-long heroic anti-Japanese armed struggle, he personally established the brilliant revolutionary tradition of the Korean youth movement. After liberation he, basing himself on this deep and strong root, founded the Democratic Youth League and gave consistent guidance and showed every possible paternal solicitude so that the Youth League could discharge its mission with credit as the organization for the political and ideological education of the youth who would succeed to the cause of the revolution, and as the militant reserve and the reliable helper of the Party.

The great Leader Comrade Kim Il Sung brightly illumined the path the Youth League should follow in each period and at every stage of the development of revolution and developed the Democratic Youth League into the League of Socialist Working Youth to suit the requirement of the development of revolution. Moreover, always directing deep attention to the work of bringing up the youth, the successors to our revolutionary cause, into ardent revolutionaries, indomitable communist fighters infinitely faithful to the Party and the revolution, he clearly indicated the direction and ways for youth education in an original way and provided our young generation with all conditions so that they could grow in good health, study to their heart's content and fully exhibit their youthful ardour, strength and wisdom at all posts of building socialism and defending the fatherland.

Under the wise guidance of the respected and beloved Leader Comrade Kim Il Sung and the revolutionary banner of his great *Juche* idea the youth movement of our country has traversed for nearly half a century the militant path shining with victory and glory and accomplished immortal feats and performed splendid exploits for the Party and the revolution.

The League of Socialist Working Youth of Korea has been firmly built up into a powerful militant organization equipped fully with the unitary ideology of the Party, into the militant reserve of the Workers' Party of Korea, the glorious Party of Comrade Kim Il Sung, and our young people are vigorously advancing, advancing, struggling and advancing with a single heart along the one road of revolution indicated by the Leader to expedite the nation-wide victory of our revolution and the triumph of the cause of socialism and communism.

At the session that day, **Comrade Kim Il Sung, the founder and Leader of the League of Socialist Working Youth of Korea and the great Leader of our Party and the 40 million Korean people, made a programmatic speech which would serve as the guiding compass in the development of the Korean youth movement and in the struggle of the LSWY and youth for the implementation of the decisions of the Fifth Congress of the Party.**

The entire attendants of the Congress were immensely stirred by the speech of the respected and beloved Leader Comrade Kim Il Sung who earnestly taught the youth, the successors to our revolutionary cause, to carry forward revolution from generation to generation until they liberate the country completely and realize the reunification of the country and achieve the nation-wide victory of the Korean revolution and until imperialism is defeated all over the world, clearly pointed to the honourable militant duty confronting the LSWY organizations and young people and the task they should perform in the struggle to carry through the decisions of the Fifth Congress of the Party and brightly lit up the path ahead of the Korean youth movement.

When the great Leader Comrade Kim Il Sung concluded his speech, the entire attendants of the Congress rose to their feet and sent up stormy shouts of "Long live Comrade Kim Il Sung, the great Leader!" with unceasing thunderous applause, which rent the meeting hall, and thus evincing their burning revolutionary passion and adamant resolve of our youth to repay the Leader's deep trust in and expectation from them with loyalty, upholding and thoroughly carrying out his programmatic teachings, further develop the Korean youth movement, hasten the national reunification and the final victory of the cause of socialism and communism and facilitate the triumph of the world revolution.

greatest success made in the development of the Korean youth movement and in the upbuilding of the LSWY during the period under review is the brilliant achievement of the complete unity in ideology and will of the ranks of the youth movement in our country based on the great *Juche* idea of Comrade Kim Il Sung, the respected and beloved Leader.

The speakers put main stress on the allround inheritence and development of the glorious revolutionary traditions of our Party established by Comrade Kim Il Sung, the great Leader of the revolution.

"One of the main topics of the discussions at the session was the question of brilliantly fulfilling the grand programme of the Six-Year Plan and original three major tasks of the technical revolution set forth by Comrade Kim Il Sung, the outstanding Marxist-Leninist and the great Leader of the revolution, at the Fifth Congress of our Party.

The speakers stressed that for the successful fulfilment of the programmatic tasks given to the LSWY by the Leader the LSWY should, before everything else, establish more thoroughly the unitary ideological system of the Party among all its members and further consolidate the unity in thought and will of the ranks of the youth movement based on that ideological system.

The speakers evinced their firm determination, saying that the LSWY organizations at all levels would intensify the organizational and political work among the youth so that they may undertake the difficult yet important tasks, bring about collective innovations and thus fulfil without fail the tasks for the first two years of the Six-Year Plan by April 15 next year.

They laid bare and flayed the new war provocation manoeuvres of U.S. imperialism and the Japanese militarists' schemes for reaggression on south Korea, and referred to the firm resolve of our people and youth to drive out the U.S. imperialist aggressors from south Korea, overthrow the Pak Jung Hi puppet clique and achieve the independent reunification of the country.

Representing the unanimous feelings of our people and youth and students, the speakers reverentially wished good health and a long life to Marshal Kim Il Sung, the great Leader of the revolution and the benevolent father of our youth and students, for the nation-wide victory of our revolution and the shining victory of socialism and communism.

A committee for drafting a message of pledge to Marshal Kim Il Sung, the great Leader of our Party and the 40 million Korean people, was formed at the session.

The head of the delegation of the south Korean revolutionary youth organization addressed the session congratulating the Sixth Congress of the League of Socialist Working Youth of Korea.

He emphasized that the south Korean youth and student movement has been able to take the most correct path of struggle and build up solidly and expand and reinforce steadfastly its ranks and is successfully discharging its mission in the struggle for the south Korean revolution and national reunification because the movement is invariably guided by the great revolutionary idea, the *Juche* idea, of the genius Leader of the revolution Marshal Kim Il Sung and enjoys his wise and pre-eminent leadership and his paternal affection.

He gave a stirring account of the fact that the young vanguards and patriotic youth and students in south Korea entrust their destiny to the fatherly Leader Marshal Kim Il Sung, looking up to him as the sun of the nation and as the lodestar of national and class emancipation, that they deeply study his ever-victorious *Juche* idea to make it their bones and flesh and that they are courageously fighting like phoenix holding high the banner of the *Juche* idea.

He quoted the teaching of the great Leader Marshal Kim Il Sung: **"The youth movement can become a genuinely revolutionary one and display great strength in the liberation struggle only when it is closely linked with the struggle of the workers and peasants,"** and declared that the south Korean youth and students, faithfully following the teaching of the respected and beloved Leader, will go deep into the midst of the masses of the workers and peasants and creditably play the role of a bridge-builder who spans a bridge between them and the revolutionary movement and, at the same time, make all their efforts to strengthen the organizational ties with the masses of the workers and peasants.

He confidently stated that the south Korean youth and students will never lower the Red banner of the revolution, no matter how arduous and severe their struggle may be, and they will sweep away the sworn enemy U.S. imperialists and the Pak Jung Hi puppet clique, their faithful dogs, and surely accomplish the south Korean revolution and the cause of national reunification, even if the blood shed by the youth were to become a sea.

Concluding his speech, he sincerely wished good health and a long life to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

When he concluded his speech, our delegates and foreign friends rushed out to the rostrum and warmly embraced him and then carried him on their shoulders. Stormy applause and cheers swept the hall.

Before making his speech the head of the delegation of the south Korean revolutionary youth organization conveyed to the rostrum of the Congress amid the thunderous applause of the attendants the congratulatory banner from the south Korean youth and students to Marshal Kim Il Sung, the sun of the nation and the great Leader of the 40 million Korean people.

Embroidered with all sincerity on the obverse side of the red congratulatory banner are the words "Long live the *Juche* idea of Comrade Kim Il Sung, the sun of the nation!" and the miniature of Mt. Paekdu-san symbolizing the glorious revolutionary traditions of our Party, the red flag of the revolution, and the torchlight showing the flames of the struggle burning furiously in south Korea.

Inscribed on the reverse side of the congratulatory banner are the following words:

"We reverentially wish good health and a long life to Marshal Kim Il Sung, the founder of the great *Juche* idea and the great Leader of the Korean revolution and one of the outstanding leaders of the world revolution and the red sun of the Korean nation of 40 million, who always leads us south Korean youth and students along one road of victory and glory."

At the session heads of the delegations of youth organizations of various countries of the world made speeches.

The first speaker was Angelo Oliva, President of the World Federation of Democratic Youth.

He quoted the words of the respected and beloved Leader of the 40 million Korean people Comrade Kim Il Sung said in his report to the Fifth Congress of the Workers' Party of Korea:

"Thanks to the wise leadership of the Party, great victories and results have been attained on all fronts of socialist construction and the revolutionary base of the northern half of the Republic has been consolidated as firm as a rock.

"In south Korea the revolutionary advance of the broad masses of the people including workers, peasants, student youths and intellectuals has gained momentum under the impact of the brilliant results of socialist construction in the northern half of the Republic, and the colonial rule of the U.S. imperialists is shaken to its very foundation."

He said:

I, on behalf of the World Federation of Democratic Youth, congratulate you on the shining victory you have made under the wise leadership of Comrade Kim Il Sung and on the basis of his great *Juche* idea.

The League of Socialist Working Youth of Korea and the Korean youth, successor to the brilliant revolutionary tradition of the Korean youth movement, have performed great exploits for their motherland and the people in the whole course of the revolution and construction by displaying indomitable revolutionary spirit and ardor under the wise leadership of Comrade Kim Il Sung, the great Leader of the Korean revolution, he noted.

Noting that the occupation of south Korea by the U.S. imperialists is a main obstacle to the reunification of Korea and source of the danger of a new war, the speaker stressed: The withdrawal of the U.S. imperialist aggression troops from south Korea is the prerequisite to the removal of the danger of a new war and to the peaceful reunification of the country.

The world progressive youth and the WFDY scathingly lay bare and denounce the manoeuvres of the U.S. imperialists and their stooges to ignite a new war and strongly demand that the U.S. imperialist aggression troops pull out of south Korea at once, taking with them all their lethal weapons, the WFDY President declared.

He went on:

The WFDY firmly believes that the Korean people and youth, united as firm as a rock around Comrade Kim Il Sung, the outstanding Marxist-Leninist and the founder of the immortal *Juche* idea, will certainly win ultimate victory in their sacred cause.

He was followed by Ta Thi Kieu, head of the delegation of the South Viet Nam Youth Union for Liberation.

She said that over the last 25 years since the founding of the LSWY young men and women of Korea under the correct leadership of the Workers' Party of Korea, particularly thanks to the solicitude and education and upbringing of Premier Kim Il Sung, the great Leader of the Korean people and the respected and beloved father of the Korean youth, have creditably performed their sacred duties and glorious tasks.

Expressing militant solidarity with the south Korean people and youth and students in their patriotic struggle against the colonial fascist rule of U.S. imperialism and for the freedom of the people and national reunification, she denounced the U.S. imperialist aggressors who provoked a barbarous war of "destroying all" in south Viet Nam.

In conclusion, the speaker sincerely wished the respected and beloved Premier Kim Il Sung good health and a long life for leading the Korean people and youth to greater successes in the socialist construction and in the struggle for the reunification of the country.

Then Nu Phan, head of the delegation of the Laotian Patriotic Youth Union, spoke.

Nu Phan, in the name of the militant Laotian youth and people, extended lofty regards to Marshal Kim Il Sung, the respected and beloved, great Leader of the 40 million Korean people, and wished him good health and a long life.

He pointed to the great achievements made by the Korean people in the revolution and construction under the wise leadership of Marshal Kim Il Sung, the respected and beloved Leader, and went on:

Today the Democratic People's Republic of Korea has irrefutably become a land of happiness, freedom and progress, a solid Eastern outpost of the socialist camp, a powerful bastion of peace and a firm prop of the national liberation movement.

Then he recalled that the Laotian youth and people are winning greater victories day by day in the fight for smashing the aggressive manoeuvrings of the U.S. imperialists and their stooges and in the construction work in the liberated areas.

Pen Vansay, head of the delegation of the Youth of the National United Front of Kampuchea, spoke next.

Noting that the entire youth and people of Korea are achieving brilliant successes in the struggle to chase the U.S. imperialists out of south Korea and reunify the country and push ahead with the socialist construction in the northern half, he emphasized: all these successes are a fruition of the wise leadership of Premier Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and the revolutionary *Juche* idea founded by him.

He continued:

The Cambodian people and government always remain on the side of the Democratic People's Republic of Korea which is struggling to liberate the southern half from the U.S. imperialists' occupation and reunify the country without any outside interference.

He introduced in detail the brilliant successes attained by the Khmer people and youth under the leadership of Samdech Norodom Sihanouk, Head of State, in the protracted struggle for winning the complete liberation of the motherland.

The next speaker was Kuo Hung-chieh, head of the Chinese youth delegation.

He stressed:

Since the Fifth Congress of the Korean Democratic Youth League, the Korean youth under the wise leadership of the Workers' Party of Korea headed by Comrade Kim Il Sung have thoroughly carried out the line of the Workers' Party of Korea on stepping up economic construction and defence upbuilding in parallel and made a great contribution to carrying out triumphantly the grand Seven-Year National Economic Development Plan, constantly displaying to a high degree the revolutionary spirit of self-reliance and hard struggle and actively participating in the Chollima workteam movement.

And he emphasized:

Comrade Kim Il Sung, the great Leader of the Korean people, taught as follows:

"With no frantic manoeuvres can the U.S. imperialists and their minions break the staunch fighting will of the Korean people to reunify the country."

We firmly believe that the U.S. imperialists will certainly be driven out of south Korea, the fascist rule of the U.S. imperialists and the reactionary Pak Jung Hi bandits be thoroughly crushed and a single reunified Korea will stand imposingly in the east of the world.

He pointed out that the great proletarian cultural revolution of China initiated and guided personally by Chairman Mao, the great Leader of the Chinese people, has won great victory.

He stressed that in the future, too, the Chinese youth and people will unite as one with the fraternal Korean youth and people and fight shoulder to shoulder with them forever to win common victory.

Taking the floor next, Nguyen Van De, head of the delegation of the Ho Chi Minh Labour Youth Union of Viet Nam, referred to the fact that the Korean people and youth have turned their country, once poor and backward, into a powerful socialist industrial state by dashing forward at the speed of Chollima. The Vietnamese youth and people regard this as their own victory and warmly hail it, he said.

He supported the struggle of the south Korean people and youth against the criminal aggressive policies of the U.S. imperialists and Japanese militarists and the treacheries of the Pak Jung Hi clique.

Then he emphasized: the Vietnamese people and youth desire peace, but the Vietnamese people and youth will carry out to the end the sacred instruction and testament of their respected and beloved President Ho Chi Minh on continuing the struggle as long as even a single aggressor remains on the soil of Viet Nam and completely sweeping away the aggressors.

In conclusion he said: I reverentially hope that Comrade Kim Il Sung, the great Leader of the 40 million Korean people and the most intimate friend of the Vietnamese people, will enjoy good health and a long life and lead the Korean youth and people to a still greater, fresh victory in the glorious revolutionary struggle.

A speech was also made by Omar Merabol, head of the delegation of the Communist Youth Union of Cuba.

Denouncing U.S. imperialism for occupying south Korea and making preparations for a new war of aggression behind the deceptive farce of the "U.S. army reduction," he voiced full support to the national reunification programme set forth at the Fifth Session of the Fourth Supreme People's Assembly of the Democratic People's Republic of Korea.

He referred to the struggle of the Cuban youth for the socialist construction of the country and for smashing the aggressive scheme of U.S. imperialism. He expressed the revolutionary solidarity of the Cuban youth with the Korean youth who are guided by Marshal Kim Il Sung, the great Leader of the 40 million Korean people.

Then the floor was taken by Bacari Coulibaly, head of the delegation of the Youth of the People's Party of Mauritania.

The speaker said, above all, that he had the honour to extend the militant greetings of the Mauritanian youth to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

Conveying active solidarity from the Mauritanian youth to the Korean youth present at the Congress, he said:

Our delegation deems it a pride to speak on this occasion to express our admiration for the great feats performed by Premier Kim Il Sung, the brilliant iron-willed hero, in turning Korea, once backward, into a country militarily powerful and economically prosperous as it is today.

Marshal Kim Il Sung, the dignified father of the League of Socialist Working Youth of Korea, who had the genius of choosing road of integral socialism for Korea from the dawn of the liberation of the fatherland, has also ensured Chollima Korea its dazzling development and invincible defence by founding his *Juche* idea.

The Korean youth who have been given particular solicitude by the respected and beloved, fatherly Leader have built up strength powerful enough to realize the reunification of the country in a completely independent way free from any outside interference, the speaker remarked.

That day the Congress was warmly hailed by the congratulatory group of the Red Young Guards.

A main topic of the discussions at the session was the tasks of the entire members of the LSWY and youths for arming themselves more firmly with the great revolutionary ideas of Marshal Kim Il Sung, the respected and beloved Leader, and further raising their role of vanguard and shock brigade in the strivings for the pre-schedule fulfilment of the Six-Year Plan, the new grand programme of socialist construction, advanced at the Fifth Congress of our Party.

The speakers noted that during the period under review a struggle has been waged for embodying in the LSWY work the Chongsan-ri spirit, Chongsan-ri method and traditional method of youth work created by the great Leader Comrade Kim Il Sung, and thus the work of the LSWY has been converted into a living work with people to rouse the masses to action for successful fulfilment of the revolutionary tasks. They evinced their resolve to conduct the work of the LSWY better by consolidating and developing this success.

At the session, important discussions were held on organizing and mobilizing the members of the LSWY vigorously to the building of socialist culture.

The speakers dwelt upon the concrete measures for implementing thoroughly the teaching of the fatherly Leader that youth should not only become the shock brigade for the socialist economic construction but become the pioneers in the cultural revolution.

At the third-day session Comrade Kim Dong Pyo, head of the congratulatory group of Korean youth and students in Japan, made a congratulatory speech.

Before making a congratulatory speech, he conveyed a silk banner from the Central Standing Committee of the League of the Korean Youth in Japan to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, to the platform party amid thunderous applause of the entire attendants.

Inscribed with all sincerity on the red-colored silk banner are the words: "Highest glory to benevolent fatherly Leader Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people and founder of the League of Socialist Working Youth of Korea, from the entire Korean youth and students in Japan.

"We entire Korean youth and students in Japan make a firm oath that we will arm ourselves firmly with the revolutionary idea, *Juche* idea, of Marshal Kim Il Sung, the respected and beloved Leader, and remain loyal forever to the Leader."

In his congratulatory speech, he referred to the brilliant successes the movement of the Korean youth in Japan has made under the uplifted banner of the revolutionary idea, *Juche* idea, of the fatherly Leader Marshal Kim Il Sung and thanks to his sagacious leadership and paternal solicitude.

He said that the biggest achievement in this is that the League of the Korean Youth in Japan educated and reared the Korean youth and students in Japan into true revolutionary soldiers of the respected and beloved Leader Marshal Kim Il Sung by firmly arming them with the revolutionary idea, *Juche* idea, of the Leader and proudly pointed out that the Korean youth and students in Japan are playing with credit the role of shock brigade and vanguard detachment in carrying out the patriotic task of the Chongryon.

In conclusion, the speaker renewed the resolve of loyalty to add lustre to the great revolutionary idea, *Juche* idea, of the fatherly Leader from generation to generation and, sincerely wished that Marshal Kim Il Sung, the great Leader of the 40 million Korean people and the sun of the nation, will enjoy good health and a long life.

Delegates to the Congress and friends from many countries of the world hugged the head of the congratulatory group of Korean youth and students in Japan and carried him on their shoulders when he concluded his speech and raised cheers waving high their hands.

After concluding his speech the head of the congratulatory group of Korean youth and students in Japan conveyed to Kim Si Hak, Chairman of the Central Committee of the LSWY, silk banners from the Central Standing Committee of the League of the Korean Youth in Japan, the Central Standing Committee of the Union of the Korean Students in Japan and the Korean Students' Committee in Japan to the Sixth Congress of the LSWY.

He continued:

In our opinion, the point of departure for preserving security in Asia is the withdrawal of all U.S. forces from Asia.

This is why the Secretariat of the IUS vigorously demands that the American imperialist aggressors renounce their manoeuvres of "reduction," "partial withdrawal," etc. and immediately, unconditionally and totally depart from south Korea.

He said that the IUS energetically condemns the criminal manoeuvres of the Pak Jung Hi clique in south Korea and categorically demands that the reactionary Japanese government immediately cease its persecution and systematic repression of the Korean students and citizens residing in Japan.

In his speech Nabilqullat, head of the delegation of the General Union of Palestine Students, extended wholehearted greetings and respect to Comrade Kim Il Sung, the brilliant and respected and beloved Leader of the 40 million Korean people, in the name of the General Union of Palestine Students and the youth of Palestine.

He warmly hailed the great successes the Korean youth and people have made in all fields guided by the invincible, great *Juche* idea propounded by Marshal Kim Il Sung, the respected and beloved Leader. The speaker stressed that thanks to the wise leadership of Premier Kim Il Sung, the great Leader and hero, and his *Juche* idea the Korean youth and people could valiantly repulse the aggression of the U.S. imperialists and defend the cause of socialism.

The Palestinian people are taking the road of liberation, he said, and went on:

This road is the road the heroic Vietnamese people are taking. This road is the road the great Korean people under the leadership of Comrade Kim Il Sung, the genius Leader, took for the liberation of their fatherland from the yoke of Japanese imperialism. This road is also the road all the people on the globe are taking, fighting against colonialism and exploitation of all forms. This road is the road of organized and revolutionary violence.

He continued:

Comrade Kim Il Sung, the respected and beloved Leader, said that **"We do not want war, but are never afraid of it."**

We Palestinian people also do not want war, but are never afraid of the Zionists and the Jordanian reactionaries instigated by the imperialists headed by U.S. imperialism.

Though the Palestinian revolution is being carried on under a difficult condition, the revolution will surely triumph, he stressed.

Henry Clemenes, vice-head of the Tanzanian youth delegation, said that they clearly witnessed the greatest successes made by the Korean youth and the entire Korean people in the socialist revolution and construction under the wise leadership of Comrade Kim Il Sung, the great Leader of the revolution. Such successes are the finest example giving inspiring strength to the new-born independent countries determined to build a new life on the basis of socialism, *Juche* and self-reliance, he stressed.

He quoted the teaching of Comrade Kim Il Sung, the respected and beloved Leader: **"In order to check and frustrate the U.S. imperialist policies of aggression and war, the anti-U.S. struggle should be unfolded more actively and more extensively in every part of the world, be it Asia or Europe, Africa or Latin America and in all countries, big and small."**

All the revolutionary countries and revolutionary youth must firmly unite as one and heroically fight to wipe off the surface of the globe the imperialists headed by the U.S. imperialists to the last man and achieve the complete victory of socialism, he declared.

Concluding his speech he proposed the meeting to sing in chorus the "Song of General Kim Il Sung."

Though they live far away from each other geographically and their nationality is different, the delegates to the Congress and foreign friends sang together loudly the "Song of General Kim Il Sung" with infinite trust in and reverence for the Leader, which rang through the hall.

Boris Karlovich Pugo, head of the delegation of the Lenin Young Communist League of the Soviet Union, delivered a congratulatory speech.

He stated that the Soviet young men and women heartily rejoiced over all the victories won by the Korean youth in socialist construction.

The speaker declared: the Young Communist Leaguers and youth of the Soviet Union are firmly standing on the side of the Korean people who are fighting valiantly for making the U.S. troops withdraw from south Korea and having their sacred right guaranteed to decide the destiny of their country by themselves without foreign interference.

The Soviet youth believe that under the leadership of the Workers' Party of Korea and its Central Committee headed by Comrade Kim Il Sung, the courageous and industrious Korean youth will attain new successes in socialist construction and in reunifying the country.

The next speaker was Andrew Stapp, Chairman of the Central Committee of the American Servicemen's Union.

He said:

I have come to have the great honor and glory to participate in the Sixth Congress of the League of Socialist Working Youth of Korea, which is being held under the personal guidance and care of the great Leader Marshal Kim Il Sung, genius of revolution, outstanding Marxist-Leninist and prominent hero whom the people of the whole world have been admiring so much.

On behalf of the entire membership of the American Servicemen's Union, I'd like to avail myself of this opportunity to extend the greatest honor and thanks to the great Leader of the 40 million Korean people, Comrade Kim Il Sung, ever-victorious iron-willed brilliant commander and outstanding Leader of the international communist and working-class movements, who has shown such a warm solicitude as to invite me to the Congress and make it possible for me to stand on this high rostrum.

We have known long ago that it is the heroic Korean youth who defeated U.S. imperialism for the first time in history.

Then how on earth could the Korean youth become a heroic one who astonished the world's people with wonders? It is because of the fact that the Korean youth have as their father, teacher and Leader Marshal Kim Il Sung, the national hero, who embarked upon the road of revolution at the age of 15, roused the youth to struggle, organized the Anti-Japanese Guerilla Army and defeated Japanese imperialism by waging a sanguinary struggle for 15 years.

The great Leader, Marshal Kim Il Sung organized the Down-With-Imperialism Union already in the autumn of 1926 and led the Korean youth to the road of struggle. And he formed the Saenal Juvenile Union and Anti-Imperialist Youth League and at last organized the Korean Young Communist League in the summer of 1927, thus clearly indicating the direction of struggle to the young people.

As the Young Communist League under his leadership firmly united numerous masses around the Leader, so the Democratic Youth League of Korea, founded with those brilliant traditions inherited from the earlier organizations, led the youth to the worthy struggle for building the democratic base and thus achieved brilliant successes.

The Korean People's Army which inherited the brilliant revolutionary traditions of the Anti-Japanese Guerilla Army organized by Marshal Kim Il Sung on April 25, 1932 humbled the arrogance of the murderous U.S. generals who ignited the Korean war in 1950.

Referring to the miserable lives of the south Korean youth, he said:

We actively support and give solidarity to the Korean youth in their struggle for chasing U.S. imperialism out and unifying the country.

He continued:

The heroic struggle of the Korean people under the wise leadership of the great Leader of revolution, Comrade Kim Il Sung—this is the model of the American Servicemen's Union members and in fact the model for the youth of the whole world.

We feel no fatigue in the struggle and continue to march forward dynamically, with courage and strength, for we have the great Leader of modern times, Marshal Kim Il Sung as our closest friend and instructor.

After exposing and denouncing the brutal suppression perpetrated by the U.S. imperialists against the progressive youth and people in the United States and the thrice-cursed atrocities committed by them in Korea and all other parts of the world, he stated:

As instructed by Marshal Kim Il Sung, the outstanding Leader of the international communist and working-class movements, the number one target of all the revolutionary people of the world is U.S. imperialism. In order to avenge the many oppressed people who have died a bloody death and in order to build a new society in America in which everyone enjoys happiness, as in Korea, I recognize the great *Juche* idea of Marshal Kim Il Sung as the Marxism-Leninism of the present time.

Marshal Kim Il Sung, the outstanding Leader of the world revolution, taught as follows:

"The peoples of all countries making revolution should tear limbs off the U.S. beast and behead it all over the world. The U.S. imperialists appear to be strong, but when the peoples of many countries attack them from all sides and join in mutilating them in that way, they will become impotent and bite the dust in the end."

In order to give death to U.S. imperialism, the sworn enemy of the Korean people and the world's people, I totally support the strategy of the anti-imperialist, anti-U.S. struggle brilliantly clarified by the most steadfast anti-imperialist fighter, great Leader Comrade Kim Il Sung.

He said that coming here to the Democratic People's Republic of Korea, the land of *Juche*, and having seen the convincing reality of the socialist accomplishments, he felt he had found many truths which a lot of our revolutionary comrades are anxiously looking for.

He continued: seeing clearly now how the revolution should be made and how strong a revolutionaries' will must be, I am filled with the conviction that brilliant successes await us in the just struggle of the American Servicemen's Union, and I feel a fresh fighting determination.

The American Servicemen's Union will study as documents that must by all means be read, the works of genius of Marshal Kim Il Sung, the outstanding Marxist-Leninist of present times, books which contain the basic positions and attitudes, strategy and tactics that should be adopted by revolutionaries in any country or in any part of the world, with the *Juche* idea as the guiding compass of struggle, we will consolidate the branches of the American Servicemen's Union in order to rally more soldiers around the organization. So long as the great Leader of revolution, Marshal Kim Il Sung brightly illuminates the road ahead, we have a powerful weapon of revolution in our hands and we are convinced that our just cause is sure to be victorious.

He said:

Finally, on behalf of the American Servicemen's Union, from the bottom of my heart I wish fresh successes to the League of Socialist Working Youth, the League of Socialist Working Youth has always played a vanguard role in the struggle to annihilate to the last the U.S. imperialist aggressors in south Korea and thus unify the country, building socialism and communism under the distinguished leadership of the great Leader of the 40 million Korean people, Marshal Kim Il Sung, ever-victorious iron-willed brilliant commander, military strategist-genius and outstanding Leader of the international communist and working-class movements.

Widaehan Suryong Kim Il Sung Wonsunim Mansel ("Long live Marshal Kim Il Sung, the great Leader!")

Mizerul Tadohaza! ("Down with U.S. imperialism!")

Then the floor was taken by Traian Stefanescu, head of the delegation of the Union of the Communist Youth of Romania.

Statement of the DPRK Foreign Ministry

The DPRK Government and the Entire Korean People Resolutely Condemn So-called "Okinawa Reversion Agreement" between the U.S. Imperialists and the Japanese Militarists as Direct Menace to Security of Our Country and Other Asian Socialist Countries

The Foreign Ministry of the Democratic People's Republic of Korea issued on June 20 a statement in denunciation of the "Okinawa reversion agreement" which the U.S. imperialists and the Japanese militarists signed after having repeated huddles for a long time.

The statement reads:

The U.S. imperialists and the Japanese militarists enacted at last a scene of signing the so-called "agreement" on the "reversion of Okinawa" on June 17 after having repeated huddles for a long time.

This implies that they have entered a stage of concrete practice of the aggressive line laid down in the notorious U.S.-Japan "joint statement" in November 1969, which openly proclaimed that the policies of aggression and war of the U.S. imperialists in Asia would be further stepped up and the revived Japanese militarist forces be directly drafted into them and brought to the fore in the aggression.

The recent fabrication of the "agreement" on the "reversion of Okinawa" is in fact for form's sake, and it is no more than a big masquerade aiming at further tightening the military compact between the U.S. and Japanese reactionaries for their joint aggression on Asia with Okinawa as a lever.

Though the U.S. imperialists and the Sato government of Japan declared that they would effect the "return of administrative power" of Okinawa, the U.S. imperialists are allowed under the aggressive U.S.-Japan "security pact" to freely use most of the huge military bases on this island, including the nuclear base, and to retain in Okinawa the "special unit" of the U.S. imperialist aggressor troops and the "Voice of America" broadcasting station which are engaged in intrigues and espionage and subversive activities against our country and other Asian socialist countries.

Furthermore, under the "agreement" on the "reversion of Okinawa" the U.S. imperialists and the Sato government of Japan have provided themselves with the possibility of converting even Japan proper into a base of nuclear assaults at the disposal of the U.S. imperialists like Okinawa and openly paved the way for the Japanese militarists' military invasion of Asia.

All this is a vicious challenge flouting the Japanese people who have fought in demand of the unconditional and total return of Okinawa and gravely infringing upon their vital interests and jeopardizing peace in Asia and the rest of the world.

The Government of the Democratic People's Republic of Korea and the entire Korean people vehemently denounce the so-called "agreement" on the "reversion of Okinawa" between the U.S. imperialists and the Japanese militarists as a heinous military and political plot of the U.S. and Japanese reactionaries for their joint Asian aggression and as a direct menace to the security of the Democratic People's Republic of Korea and other Asian socialist countries.

Following the "new Asia policy" based on the so-called "Nixon doctrine," the U.S. imperialists are now more frantically stepping up their intrigues to put into effect without difficulty their wild aggressive designs chiefly by means of making "Asians fight Asians" by mobilizing the revived Japanese militarist forces and other Asian satellite states and puppets.

The Japanese militarists are running high fever in their preparations for military invasion of Asian countries in a foolish attempt to realize their old dream of the "Greater East Asia Co-prosperity Sphere" as a reward for their active joining and cooperation in the fulfillment of the criminal aggressive plan of the U.S. imperialists.

Recently, for instance, the Japanese militarists have staged provocative military exercises in the East Sea of Korea and frequently dispatched officers of the Japanese "self-defence forces" to south Korea, repeatedly proclaiming that the whole of Korea is included in their operational zone, and Sato himself, the boss of Japanese militarism, plans to turn up in south Korea on July 1 to be closeted with Pak Jung Hi puppet clique over aggressive plots against the Democratic People's Republic of Korea.

Openly prattling that Taiwan also falls within their "defence sphere," the Japanese reactionaries, in conspiracy with the U.S. imperialists, are openly revealing their wild aggressive ambition against the People's Republic of China, and in the recently faked-up "agreement" on the "reversion of Okinawa," too, they do not bother to conceal their design to annex to Japan in a burglarious manner Tiaoyu and other islands belonging to the People's Republic of China.

The U.S. imperialists and the Japanese militarists are scheming to turn Okinawa into a joint base for Asian aggression.

All this vividly shows that the U.S. imperialists and the Japanese militarists have entered a very dangerous stage in their aggressive conspiracy and tie-up and that it stands out as a very urgent task at present to fight Japanese militarism while fighting U.S. imperialism in order to maintain peace and security in Asia.

Now the democratic political parties and social organisations and people of broad strata of Japan are waging a more vigorous struggle on a nation-wide scale against the deceptive "agreement" on the "reversion of Okinawa" and the tightening of dangerous military conspiracy and tie-up between the United States and Japan and in demand of the unconditional and total return of Okinawa and the abolition of the aggressive U.S.-Japan "security treaty."

The entire Korean people resolutely support this just struggle of the Japanese people and express militant solidarity with it.

The U.S. imperialists and the Japanese militarists have become all the more undisguised in their designs for joint Asian aggression, and this shows they fail to draw any lesson from the past history.

The U.S. imperialists and the Japanese militarists should look at the reality today in the face and desist from running riot.

Korea today is not Korea yesterday and Asia today is not Asia yesterday.

The Japanese people either are not the Japanese people of yesterday, but they have grown to be a mighty force against aggression and war.

The awakened Asian people who have grown to be the great revolutionary force of our times against imperialism and colonialism will never look with folded arms at the rash manoeuvres of the U.S. imperialists and the Japanese militarists for aggression and war.

If the U.S. imperialists and the Japanese militarists dare to plunge themselves into another adventurous war of aggression, heedless of the lesson of history and the stark reality of today, there will be only the grave of final ruin for them.

The U.S. imperialist aggressors must return Okinawa to the Japanese people unconditionally and totally and get out immediately of the whole of Japanese territory including Okinawa, and of south Korea and Taiwan, south Viet Nam, Laos and Cambodia and all other Asian areas on which they have set foot, taking along their aggressor troops and lethal weapons, and the Japanese militarists should discontinue forthwith their aggressive manoeuvres against the Korean and other Asian peoples, giving up their preposterous daydream.

The Korean people, in close unity with all the revolutionary peoples of Asia and the rest of the world, will continue to wage a stubborn struggle against the manoeuvres of aggression and war of the U.S. imperialists and the Japanese militarists and for the maintenance and consolidation of peace in Asia and the rest of the world.

(Continued from Page 3)

struction, he expressed firm solidarity with the Korean people in their struggle for the withdrawal of the U.S. troops from south Korea and for the independent reunification of the country.

He concluded his speech shouting the slogan "Long live Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people!"

Having mounted the rostrum next, Carlos Rafael Aguero, representative of the Youth of the National Liberation Sandinista Front of Nicaragua, said:

First of all, I extend, in the name of all the revolutionary youth and students of Nicaragua, the warmest greetings to Comrade Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea, Premier of the Cabinet of the Democratic People's Republic of Korea, the great Leader of the 40 million Korean people and outstanding Leader of the international revolutionary movement.

He went on:

Comrade Kim Il Sung, born of a patriotic family, set out on the road of struggle at his early age and his revolutionary activities serve as a shining paragon not only for the new generation of Korea but also for the new generations of the whole world who have risen in the struggle for defeating the common enemies led by U.S. imperialism.

The nearly-half-a-century-long history of revolutionary struggle of the great Leader of revolution Comrade Kim Il Sung is a history of worthwhile struggle devoted to the restoration of the fatherland and the happiness of the people, a glorious, resplendent history which ushered in a new era in the national liberation struggle in colonies for the first time in the world history, a history of struggle which shook the colonial rule to the very foundation by smashing its arbitrariness, and a history which set a typical example in the struggle for progress, democracy and socialism in the world.

His invincible *Juche* idea is a precious wealth of the Korean youth and people and also a valuable asset for the revolutionary peoples of other countries in the world.

The reason is that the very *Juche* idea serves as a guiding compass for the revolutionary peoples of the world to break the chains of colonial slavery by imperialism, the U.S. imperialists in particular, and gain a new, free and happy life.

The great *Juche* idea created and applied by Comrade Kim Il Sung, the outstanding Marxist-Leninist theorist of our times, is the Marxism-Leninism of the 20th century, which is of universal significance in revolution and construction in all countries, and the brilliant guiding idea guaranteeing the ultimate victory in revolution and construction.

Addour Larbi, head of the delegation of the Youth of the National Liberation Front of Algeria, said that the friendly relations formed between the peoples of the two countries, Korea and Algeria, in the fierce struggle against the common enemy, imperialism, colonialism and Zionism, have deep traditional roots.

Then he remarked that revolutionary Algeria actively supports and encourages the Korean people in the struggle against U.S. imperialism and the Pak Jung Hi puppet clique, the traitors to the nation.

In his speech, Szabo Ferenc, head of the delegation of the Central Committee of the Hungarian Union of Young Communists, pointed out: Our biggest common enemy is international imperialism headed by U.S. imperialism. And he exposed and condemned the U.S. imperialists who are persisting in their aggressive machinations everywhere in the world.

In the name of the Hungarian Union of Young Communists, he sincerely wished the Korean people great success in the implementation of the tasks set forth by the Workers' Party of Korea headed by Comrade Kim Il Sung and in the struggle for national reunification.

Armando da Cruz, head of the delegation of the African Independence Party of the Portuguese Guinea and Cape Verde Islands, stated in his speech that the peoples of Korea and the Portuguese Guinea and Cape Verde Islands are fighting shoulder to shoulder against the imperialists headed by U.S. imperialism and for progress and happiness of the people and that in this course the bonds of friendship and solidarity banding the two peoples together are being further tightened.

Pointing to the fact that the Korean people are still making the revolution and the U.S. imperialists occupying the southern half of the country are incessantly intensifying provocative acts against the northern half, he honed that under the guidance of the Workers' Party of Korea led by the sagacious Leader Comrade Kim Il Sung the Korean people will accomplish their goal.

Heads of the foreign delegations who made speeches at the June 22 and 23 sessions conveyed banners, gifts and medals to the Congress in congratulation of it.

At the session of that day there were suggestions that an appeal addressed to the south Korean youth and students and an appeal to the Korean youth in Japan be adopted in the name of the Congress. The suggestions received the enthusiastic approval of the attendants.

The session heard the report of the Credentials Committee of the Sixth Congress of the League of Socialist Working Youth of Korea and adopted the resolution endorsing it with a unanimous approval. The committee for drafting the resolution on the review of the work of the Central Committee of the League of Socialist Working Youth of Korea was also elected at the session.

The Congress continues.

"U.S. Imperialism Must Send Back Cuban Crewmen without Delay"

Recently the U.S. imperialists have perpetrated an outrageous act of forcibly dragging out to the "court" the Cuban crewmen whom they illegally kidnapped in the high seas and of inflicting punishment on them, in disregard of the strong warning of the Cuban people and the resolute protest and denunciation by the peace-loving peoples of the world.

The "trial" farce staged by the U.S. imperialist aggressors against the Cuban fishing boats and crew is a malicious, unpardonable criminal act wantonly trampling underfoot the national dignity and sovereignty of the Cuban people, a naked, shameless provocation against Cuba, a crude violation of international law and an open challenge to the peace-loving peoples of the world.

Comrade Kim Il Sung, the outstanding Marxist-Leninist and the great Leader of the revolution, taught as follows:

"It must be remembered... that not only are the U.S. imperialists sly, they are also the most heinous and abominable barbarians of modern times." (Kim Il Sung, *Selected Works*, Vol. I, p. 293.)

Indeed, the kidnapping of the Cuban fishing boats by U.S. imperialism and its "trial" of their crew are an extremely nefarious, vicious criminal act which can be perpetrated only by the U.S. imperialist barbarians, the descendants of truculent pirates who built a lair of the imperialist robbers, raiding and looting a large number of ships in the high seas and exterminating the Indians.

The recent malicious provocation committed by the U.S. imperialists against the Republic of Cuba and her people clearly discloses their filthy nature as a pack of heinous freebooters engaged in aggression and pillage, murder and violence and as vicious robbers disturbing the peaceful, creative labour of people and trying to enslave them.

The Korean people sternly condemn with surging indignation this vicious criminal atrocity of the U.S. imperialist aggressors and strongly demand them to send back the illegally kidnapped Cuban crew without delay.

The U.S. imperialists who harbour malice against revolutionary Cuba are running wilder to strangulate the Cuban revolution and destroy and stamp out her revolutionary gains as socialist construction is rapidly progressing in Cuba and her revolutionary influence upon Latin American is growing with each passing day.

The U.S. imperialists must not miscalculate the revolutionary stand of the Cuban people who are intensifying the anti-U.S. struggle as never before under the leadership of the Cuban Communist Party headed by Comrade Fidel Castro and must stop running riot.

The U.S. imperialists must call off the unjustified "decision" against the illegally kidnapped Cuban crew and immediately send them back home.
